M. Mucahit Tezcan

Lead Frontend Engineer · London / Reading, UK

mmucahit.tezcan@gmail.com · github.com/wchttzcn · linkedin.com/in/m-mucahit-tezcan

Summary

Lead frontend engineer with 6+ years of experience building React and TypeScript applications, mainly content management systems and back-office tools for banks and retailers such as Ziraat Bank, IKEA and Opet. I lead the frontend team at MagiClick Digital UK, where I own frontend architecture, code review and technical hiring. I started and lead the React rewrite of the company's CMS, now published as a set of versioned npm packages, and wrote the rich-text editor that both its React and Vue products embed. I use Claude Code daily in production development.

Experience

MagiClick Digital UK · Lead React Developer · Aug 2024 – Present

- Lead the frontend team building CMS and back-office tools for banking and retail clients, working with stakeholders and UI/UX designers on requirements and running technical interviews for frontend hires.
- Lead MagiClick CMS v2, the React, TypeScript and Tailwind CSS rewrite of the company's content management system for banks, delivered to a corporate banking client as an application built on the published packages.
- Set its frontend architecture (React Query, Zustand, React Router, React Hook Form, Vite) and shipped the upgrade to React 19, React Router 8, React Query 5 and Tailwind CSS 4 as a single breaking release, recording each decision as an architecture decision record.
- Built a reusable UI library of 150+ components on Radix and Tailwind CSS with light and dark themes, published as its own npm package.
- Turned the single application into a Yarn workspaces and Turborepo monorepo of four packages, released together through one Azure Pipelines publish pipeline, with a changelog and migration guide for consuming teams.
- Designed and wrote MagicEdit, a rich-text editor with a framework-free TypeScript core and thin React, Vue 2 and Vue 3 wrappers, published as four npm packages.

- Wrote MagicEdit's test suite of 850 tests across 81 files with Vitest, React Testing Library and Playwright, run on every pull request.
- Use Claude Code daily since July 2026 for feature development, refactoring and code review, added shared agent instructions to the team's repositories, and prototyped an AI assistant for the CMS (Fastify, OpenAI SDK, Model Context Protocol server).

MagiClick Digital UK · Senior React Developer · Nov 2023 – Aug 2024

- Continued building MagiClick CMS v2 after moving to the London office, ahead of its release as versioned npm packages.
- Maintained and extended the Vue 2 CMS that existing clients run: rich-text editor upgrades, XSS hardening, and a build migration from Vue CLI to Vite.

MagiClick Digital Turkey · Senior React Developer · May 2023 – Nov 2023

MagiClick Digital Turkey · Frontend Developer · Jun 2020 – May 2023

- Built Ziraat Bank's Ticaret Yolu B2B trading platform (2023) with React, TypeScript, React Query, Jotai and Vite.
- Started MagiClick CMS v2 (Oct 2022) and set up its Vite, React Router, Tailwind CSS and Storybook foundation.
- Maintained and extended MagiClick CMS for Banks, a content management system for financial institutions, in Vue and Vuex.
- Developed the IKEA Turkey back office (2021 – 2023), and the Opet website and back office (2020 – 2021) in a TypeScript and React monorepo using react-admin and Material UI.
- Delivered Ziraat Bank OPI (React, TypeScript, Recoil) and Fibabanka Video Banking (React, Redux, Formik).
- Promoted to Senior React Developer after three years; mentored junior developers and joined the technical interview panel.

Freelance · Frontend Developer · Oct 2019 – Jun 2020

- Built responsive websites and web applications for clients with React, Vue, Next.js and Gatsby, deployed on Netlify and Heroku.
- Delivered headless CMS sites on Contentful, integrating REST APIs, OAuth and WebSockets.

Selected projects

Project	Dates	My role	Stack
MagiClick CMS v2	Oct 2022 – Present	Started and lead the frontend of the rewritten content management system for banks, published as four npm packages.	React, TypeScript, Tailwind CSS, React Query, React Router, Zustand, Turborepo
MagicEdit	Nov 2025 – Present	Designed and wrote the rich-text editor embedded in the React and Vue CMS products.	TypeScript, React, Vue, Vite, Vitest, Playwright
Back-office application	May – Aug 2025	Set up the project and co-developed its first screens.	React, TypeScript, React Router, React Query, Zustand, Tailwind CSS
Ziraat Bank Ticaret Yolu	Jan – Aug 2023	Built the frontend of a B2B platform where companies promote and trade products and services.	React, TypeScript, React Query, Jotai, Vite
IKEA Turkey back office	Sep 2021 – Jan 2023	Developed the internal back-office application behind ikea.com.tr.	React, TypeScript, react-admin, Material UI
Ziraat Bank OPI	Jun – Sep 2021	Built the frontend.	React, TypeScript, Recoil
Opet website and back office	Jun 2020 – Sep 2021	Developed the public site and the internal admin tool in one monorepo.	React, TypeScript, react-admin, Material UI, Sass
MagiClick CMS for Banks (v1)	Sep 2020 – Present	Maintain and extend the original content management system.	Vue, Vuex, vue-router, Less
Fibabanka Video Banking	Jun – Aug 2020	Developed the frontend.	React, Redux, Formik

Skills

- **Languages and frameworks:** TypeScript, JavaScript, React (Hooks, Context), React Router, React Query, Next.js, Vue, Node.js
- **State and data:** Zustand, Jotai, Redux, Recoil, React Hook Form, REST, GraphQL, WebSockets
- **UI and design systems:** Tailwind CSS, Radix UI, Styled Components, Material UI, Storybook, Sass
- **Build and tooling:** Vite, Webpack, Turborepo, Lerna, Yarn, npm, tsdown, ESLint, Prettier, Azure Pipelines
- **Testing:** Vitest, React Testing Library, Playwright
- **AI-assisted development:** Claude Code, Model Context Protocol

Education

Istanbul Arel University · Associate's degree, Computer Programming · 2017 – 2019

Volunteering

Scrimba · Coding mentor · May 2020 – Present

Help students learning frontend development on Scrimba's Discord community of 10,000+ members; awarded the Community Hero badge.

Languages

Turkish (native), English (C1)
